Re: CAZARES v. CSC, et al.

Dear Walt:

I just recalled that there was an exhibit in Armstrong among the sealed documents which has to do with forcing Mayor Cazares to resign. L. Ron Hubbard wrote, regarding the resignation, "Good news. Be sure to take credit for it." See enclosed p. 4651 R.T.

The document was not admitted into evidence in Armstrong because of relevancy; but it would almost certainly be relevant in Cazares. Maybe you can get it.

I note too that in the September 6 hearing Hubbard's attorneys state that Mary Sue Hubbard says Hubbard had no contact with the GO in Clearwater. I know that he had the senior GO staff out to Dunedin and briefed them there; and I handled much of his communications while in Dunedin and know that he operated the GO personally throughout that period.

Hope this helps.

Very truly yours,

Gerry Armstrong
